We in Toto are very proud of the work we did on the new CD. It's like a very fine Italian wine that took a very long time to cultivate, nurture, and handle with the best of care to make a thing of beauty. We are so happy to have you guys aboard helping us in Italy (our new 2nd home for Toto). We've always loved it there, and look forward to seeing all of our great Italian fans, and we thank you at GGM for making this a momentous occasion when we come to your lovely country. All our best and good luck with the site.

.....Bobby
